A monster who

And recently, you

I heard.

Please get to the topic, doctor.
What's wrong ?
Your optic nerve has gone loose. It has been under too much pressure.
So, when you take the immense G-force, you will often experience blindness.

I can still fly though, right ?
No !
You may p lot postal a rcraft not the those combat a rcraft
G ve it up, Anuki

I cannot seek myself if I become a postal plane pilot
Please keep th s between us

Either way
I am going to
write this
to your

Mercenaries

I do not

I am sure there

Who would believe that stupid Jo beat Anuk ?
Are you really ok?

Redman!!

Doesn't it remind you of a certain person ?
Go on
Anuki has amnesia
He cannot recall where he is from and who his parents are
He was found on the sea 15 years ago
by a fisherman in Montana
15 years ago
Isn't that when we bombarded the united nation #3 airforce base and began the Saiyan war ?

It was also when the princess Jasmine was visiting the base and who fled with the princess successfully
was Guntur.
And it was told that he lost his only son in the bombardment

Guntur Guntur Redman !
If this is not a sick coincidence

I believe this is not a coincidence.

Get away ! It's going to explode now !!

Uwaaaah !

This war is creating an epic drama.

Enemy raid has been failed.
We are currently chasing their squad.

At least get the ace !

What do you mean sir ?

Didn't you find it strange ?
These planes are made of woods.

They don't get detected by the radar

Does that mean

the Information was leaked ?
What is this, you let us go on the mission even when you knew this ?!
Isn't that a little harsh ?! I understand that we were brought with money, but still ... !

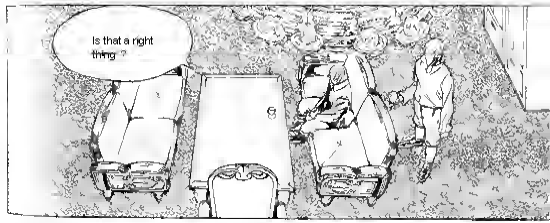
Two members died.
for their family, to earn money.
They could not even fly well on their first flight and were wasted because of your test.



Is that a right thing ?

What do you think It's more important between a nation and a life of individuals ?
A dog that chases a rabbit will be killed in the end also.

If a country's justice is only for benefit of few people...,
how about those who died for the few? What did they fight for ?

However

You surely have ambition, right ?

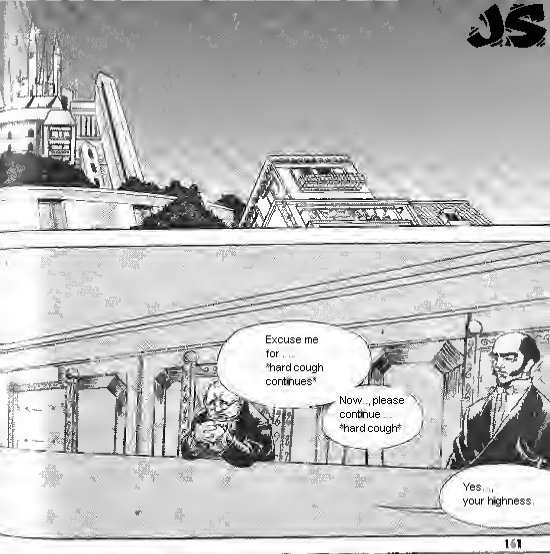
Late this evening, Laikadia sent us a f nal warn ng
We are g ven 72 hours They want us to surrender We must answer now!

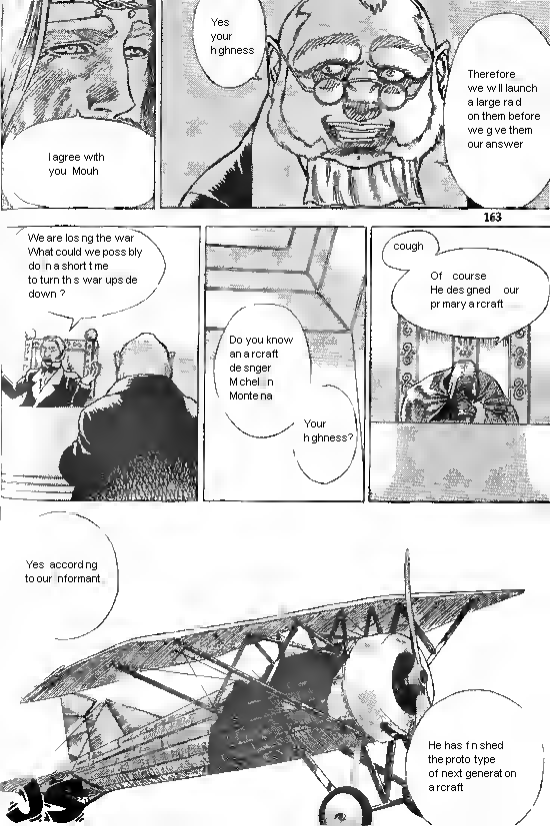


Excuse me for .... *hard cough continues*
Now .., please continue .... *hard cough*
Yes .., your highness.

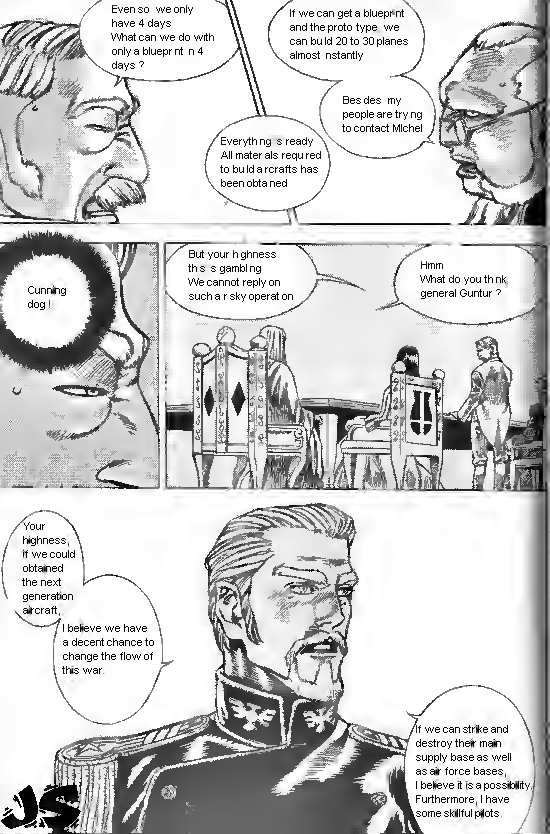
We will not surrender ! Although they may have upper hand now,
we cannot give up on our 1000 year-old empire this easily !

There are currently 30 weak neutral countries.

Snce they are too weak to jon nether s de let s s gn a peace treaty with them
And f we use the of to conv nce them we w ll have upper hand n th s war
Don't you know more than 1/3 of them are secretly all ed with La kad a ?
Prime Minister, Laikadia is not just a country with mere guts. While we try to convince them, they will do something.
Besides, it is even unsure that they will sign the peace treaty
Cough !
That s
JS



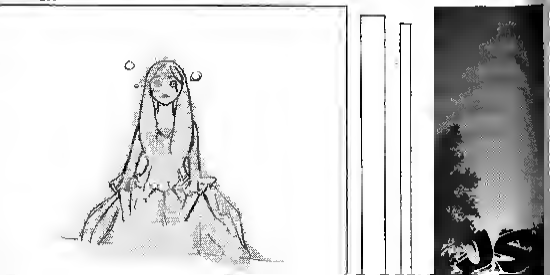
Yes your highness
Therefore we will launch a large raid on them before we give them our answer
I agree with you Mouh
163
We are losing the war What could we possibly do in a short time to turn this war upside down ?
Do you know an aircraft designer Michel in Monte na
Your highness?
cough
Of course He designed our primary aircraft
Yes according to our informant
He has finished the proto type of next generation aircraft



Even so we only have 4 days What can we do with only a blueprint in 4 days ?
If we can get a blueprint and the prototype we can build 20 to 30 planes almost instantly
Besides my people are trying to contact Michel
Everything is ready All materials required to build aircrafts has been obtained
Cunning dog !
But your highness this is gambling We cannot reply on such a risky operation
Hmm What do you think general Guntur ?
Your highness, If we could obtained the next generation aircraft,
I believe we have a decent chance to change the flow of this war.
If we can strike and destroy their main supply base as well as air force bases, I believe it is a possibility. Furthermore, I have some skillful pilots.

Hmm
I have to make it so that we go for peace treaty idea
it s too late pr me m n ster
Rad
We will raid !
165

Your highness !
Prime minister ...
I respect your opinion. However, in case they refuse to sign the peace treaty ... *hard cough* we may need defense force ...
We could use the planes as our defense ....
Everyone, prepare for the final assault...
Sir !
Yes, your highness !
The meeting is over. Hurry ....



Ma'am ...
I can see how worr ed you are by lookng at your face
Why am I so useless ... ?
